**\*\*\* Notes of Significance \*\*\***

**South Fork Zone consists of 3 fires on the Caribou-Targhee National Forest Black, Carrot, and Big Elk.**

## Evening Brief

Date/Time Stamp: Sunday, August 28, 2016 - 10:23 PM

---

### Weather Summary

Most areas will see dry weather through Tuesday. Winds will shift to the west again by Friday across Nevada and Idaho increasing this weekend and especially next week.

Forecast models do indicate the potential for increasing southwest winds over Nevada and into Idaho by later this weekend into early next week. A possible return of dry lightning to Idaho by the middle of next week, while showers and wetter storms could return to southeast Utah.

---

### Preparedness Levels

#### Current:

Great Basin	4
National	4

---

**Great Basin Fire Activity: Light Initial Attack**

**New Fires and Acres: 14 fires for 4.6 acres / 4,222 acres Large Fire Growth**

---

### Great Basin Fire Potential Summary

ERC's remain near or beyond the 97th percentile across a large portion of Idaho and western Wyoming into far northern Nevada and Utah. With ongoing fires in Idaho and western Wyoming into northern Utah, there is the potential for significant growth still in the coming days as drier and warmer weather returns.

Moist conditions are expected to continue across southern portions of Utah, Nevada and the Arizona Strip this week with drier weather returning region-wide this weekend into early next week.

**A Fuel and Fire Behavior Advisory** is also in effect for the Northern half of Nevada, Southern Idaho and Northwest Utah.
